SRUTHILAYA S

I am writing to express my sincere enthusiasm in applying for the SAP Support Engineer role at SAP. I am thrilled about the opportunity to contribute my skills and passion to a company known for innovation and excellence.

In my professional journey, I completed my Bachelor's in Electronics and Communication Engineering and honed my skills as an event manager for YICII REC, a socio-entrepreneurial club at my college during 2021-2022. As a testament to my dedication and leadership abilities, I was elected to the council as the Co-Chair of the Rural Initiative Vertical in 2022-2023. I also gained valuable experience as a SAP trainee at Kaar Technologies and currently hold the position of Project Manager at TechCurators.

My most valuable attribute are my exceptional **communication** skills. At TechCurators, I engage in daily **collaboration** with Subject Matter Experts (SMEs), Quality Assurance (QA) teams, and project stakeholders. This experience has strengthened my ability to effectively communicate complex ideas and facilitate teamwork in a dynamic project space.

My **leadership qualities** were evident when I spearheaded "Redefining Red," an event aimed at breaking the taboo around menstruation among young children. I organized a successful event at the Porur Girls Government School in Chennai, bringing in doctors to educate students on menstrual health and related topics. This project underscored my commitment to social impact and my ability to lead initiatives that make a difference.

I am excited about the possibility of bringing my skills and experience to SAP, a company I deeply admire. I am confident that my communication and leadership abilities, combined with my passion for making a positive impact, will allow me to contribute to your team's success.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to SAP's mission and goals. Please feel free to contact me at sruthilayasrinath2002@gmail.com or 6381720922.

Sincerely,
Sruthilaya Srinath
